NATIONWIDE SECURITY SERVICES

# IMPLEMENTING NEXT GENERATION SECURITY.

# BUILDING TECHNOLOGY FOR PHYSICAL SECURITY.

## CUTTING-EDGE CAPABILITIES.

At Wachter, we're experts at implementing physical security solutions for retail, commercial, industrial, transportation and corrections facilities. We help customers get connected and stay connected by partnering with you to design the right security solutions to meet the unique needs of your organization. Our security professionals are among the most widely experienced in the industry. We understand the demands of converged IP security technology and are leaders in technology deployment and electrical construction.

Wachter's capabilities include systems design, building information modeling (BIM), on-site surveys and assessments, installation, project management, ongoing support and service throughout the United States and the United Kingdom.

Whether your organization anticipates new construction, retrofits, or technology deployment, our unmatched ability to provide highly trained, full-time technicians and electricians makes Wachter the right choice for network infrastructure, electrical power and physical security deployment coast-to-coast.

Wachter offers the latest in integrated electronic security solutions that take advantage of your network infrastructure. Our security specialists are proficient in the design and implementation of the most up-to-date physical security technologies, including:

- Video management software
- Video storage and retention solutions
- Video analytics and monitoring
- Mobile wireless security
- Access and perimeter control systems

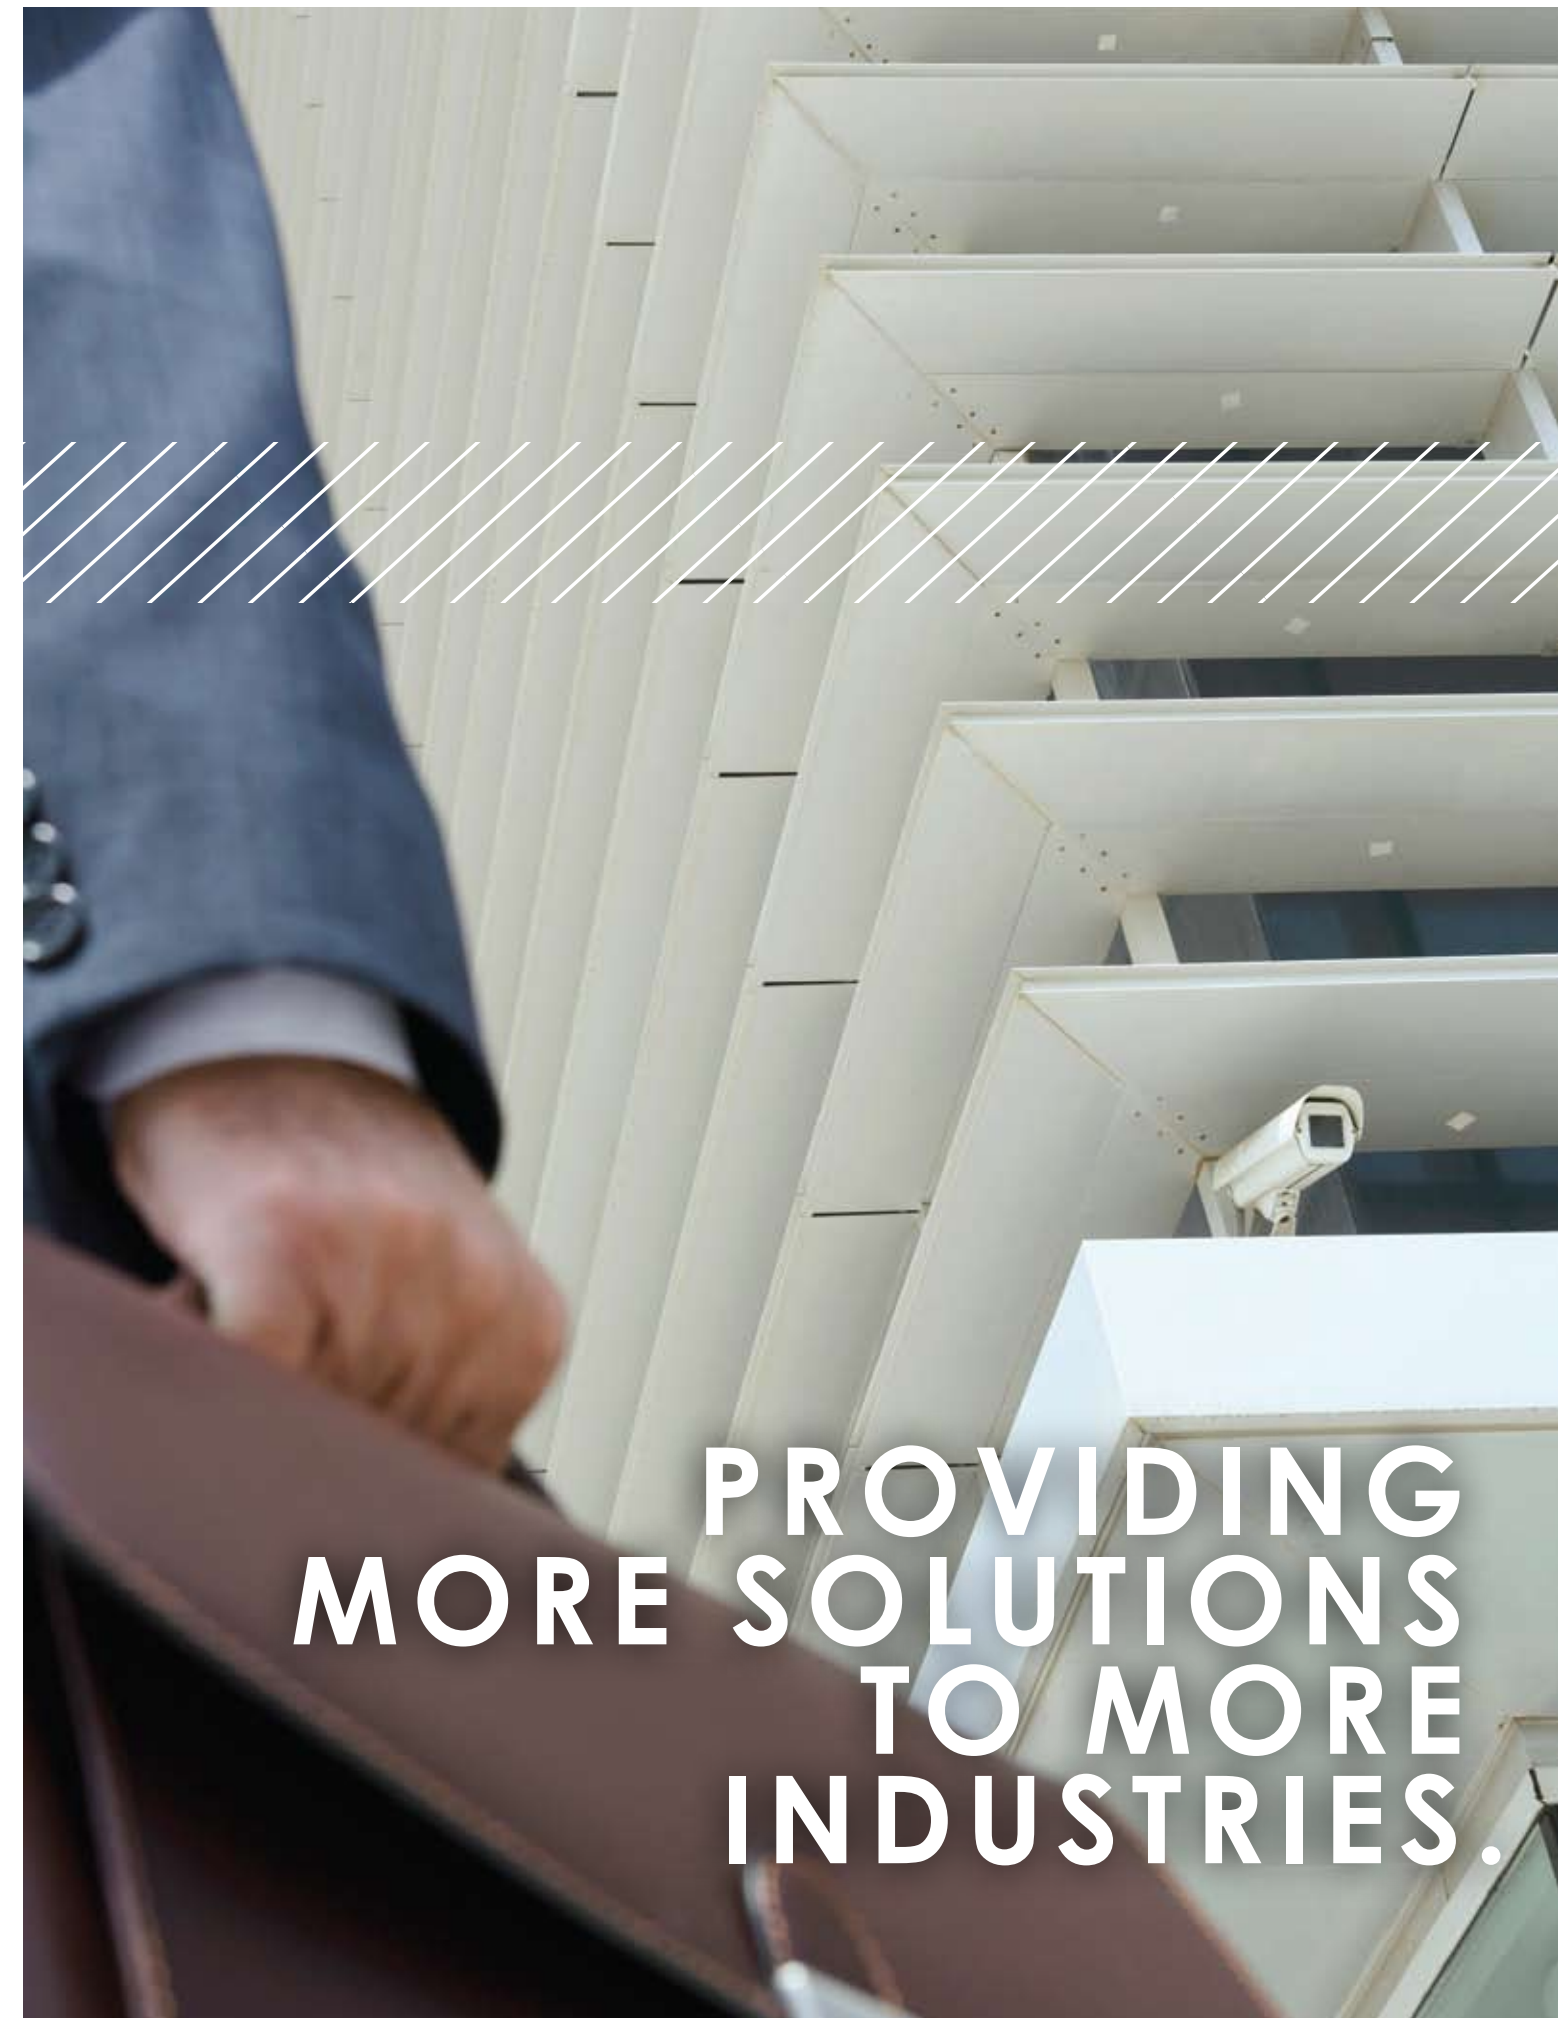

**DESIGNED  
WITH YOU IN  
MIND.**

## **NATIONWIDE SERVICE AND SUPPORT.**

Wachter can meet your physical security needs with custom service level agreements to provide system design, implementation and ongoing support. Our nationwide technician base, coupled with our 24x7 call center and rapid response can provide the support you need for:

- IP and Analog based video, access control and intercom systems
- Command and control software platforms
- MATV, CATV infrastructure
- Nurse call and man-down systems
- Biometric systems
- Perimeter security and stun fence integration
- EAS and RFID technology deployment
- Intercom and paging systems

**PROVIDING  
MORE SOLUTIONS  
TO MORE  
INDUSTRIES.**

**WE UNDERSTAND  
THE POWER OF  
PARTNERSHIPS.**

## SMART TEAMWORK.

At Wachter, we realize that truly integrated solutions require both deep technical experience and vertical industry knowledge. That's why we partner with leading Original Equipment Manufacturers, experienced Systems Integrators, and the top Value Added Resellers in the industry. We pride ourselves on maintaining the most current and relevant training on the systems technology we support. From start-to-finish we collaborate with you to provide the best design and a single source for rapid deployment and systems maintenance.

Wachter has the right combination of experience, capabilities and service to deliver and maintain, video surveillance, loss prevention, access control and perimeter security systems. When you put us to work, we'll demonstrate that security isn't just about locking doors – it's about opening them to the opportunities of improved process control and greater cost effectiveness. Building Technology for Physical Security, make the connection. Contact your Wachter representative today.

## THAT'S THE WACHTER ADVANTAGE.
