

Lenexa Local Business Unit

FACT SHEET

Wachter's Lenexa LBU (Local Business Unit) offers expertise in engineering, project management, and installation services for:

- Low Voltage Systems
- IT Networks
- Electrical Projects

With 14+ locations and a nationwide W2 workforce, Wachter's reach stretches across the U.S.

Lenexa Expertise

Design Services:

- Site Assessment
- Equipment Procurement
- IT Network Engineering
- Testing and Documentation
- Lighting Audits
- Electrical Engineering

Maintenance:

- Power Monitoring
- Thermography
- Network and Structured Cabling
- Electrical System Service
- Physical Security
- Automation and Controls

Lenexa Project Spotlight

ExxonMobil

- Process Automation Consulting and Design
- Industrial Networking Consulting and Design
- PLC Software Development
- Design-Build Engineering
- Electrical, Instrumentation, and Maintenance Services
- Thermal Imaging Services

Procter & Gamble:

- Electrical Power, Instrumentation, and Maintenance Services
- Process and Freeze Tracing Installation and Maintenance
- Plant Lighting Upgrades
- Structured Cabling and Network Services (Corning and Belden Certified Installation)
- Onsite Facility Maintenance

Driving Value:

Wachter's nationwide W2 workforce provides a single source for the design, installation, and maintenance of electrical power and IT networks.

We develop integrated solutions that improve efficiency and reduce the total cost of ownership (TCO).

Low Voltage Systems:

- Physical Security / CCTV
- Access Control
- Fire and Burglar Alarm
- Structured Cabling
- Audio Visual

IT Networks:

- Wireless
- Data Center
- IP Phone Systems
- LAN / WAN
- Switch and Route
- Fiber Optics

Martin Marietta:

- MSHA Certified for Above- and Below-Ground Work
- Electrical Maintenance and On-Demand Service
- Design-Build Engineering
- Electrical Network Design and Implementation
- Process Control Design and Implementation
- Physical Security Design and Implementation
- Thermal Imaging Services

Cargill:

- Electrical Maintenance and On-Demand Service
- Design-Build Engineering – KC Plant Electrical Infrastructure Upgrade
- Structured Cabling Services and Design
- Thermal Imaging Services

Wachter At A Glance:

Founded: 1930

Corporate Structure: Privately Held

Total Employees: 1,500

Headquarters: Lenexa, KS

Regional Offices: 14+

What We Do:

We provide turnkey services including analysis, design, engineering, installation, and maintenance.

Wachter is here to keep critical systems delivering a return on your investment.

How We Do It:

Wachter values relationships.

First, we ask powerful questions to understand how technology can be used to improve processes.

Then our engineers develop a design concept to validate and refine in a real-world environment.

Finally, our field crews implement the solution – at one site or thousands of locations.

Wachter holds electrical and low voltage licenses in all 50 states.
