

St. Joseph Local Business Unit

FACT SHEET

Wachter's **St. Joseph LBU** (Local Business Unit) offers skilled, cost-effective electrical construction, installation, maintenance, repair, and emergency services.

Our local team's extensive technical and project management experience includes:

- Controls Engineer and Technicians
- Project Managers
- Master and Journeyman Electricians

And we are backed by the resources and partnerships of a national company.

With 14+ locations and a nationwide W2 workforce, Wachter's reach stretches across the U.S.

Driving Value:

Wachter provides a single source for the design, installation, and maintenance of electrical power and IT networks.

We develop integrated solutions that improve efficiency and reduce the total cost of ownership (TCO).

Wachter At A Glance:

Founded: 1930

Corporate Structure: Privately Held

Total Employees: 1,500

Headquarters: Lenexa, KS

Regional Offices: 14+

What We Do:

We provide turnkey services including analysis, design, engineering, installation, and maintenance.

Wachter is here to keep critical systems delivering a return on your investment.

How We Do It:

Wachter values relationships.

First, we ask powerful questions to understand how technology can be used to improve processes.

Then our engineers develop a design concept to validate and refine in a real-world environment.

Finally, our field crews implement the solution – at one site or thousands of locations.
